

# P0589 - AK47 PLUS

## PROFESSIONAL HIGH-POWER FOAMING DEGREASER FOR TANKS AND BOX BODIES

### FIELD OF APPLICATION

AK 47 PLUS is a powerful foaming detergent formulated for deep and effective cleaning of external surfaces. Thanks to its emulsifying action, it easily removes inorganic grease residues, oils, chemical additives, and industrial effluents. Ideal for stainless steel tanks, box bodies, and loading accessories, it is also perfect for the maintenance and thorough cleaning of agricultural machinery, excavators, and containers prior to storage. The foam generated allows precise visualization of the treated areas, ensuring uniform application and optimal results.

This particularly powerful product is specifically formulated for the removal of greasy residues, oils, chemical additives, and industrial effluents inside stainless steel tanks and loading accessories (hoses, manholes, etc.). Suitable for inclusion in HACCP plans.

### BENEFITS

AK 47 PLUS is also excellent for deep cleaning of agricultural machinery, excavators, and containers prior to storage (with repainting). It is also ideal for degreasing and pre-paint cleaning of new fabricated laminates, after air drying.

- **Effective cleaning:** emulsifies and removes inorganic greases, oils, chemical additives, and industrial residues from external surfaces such as stainless steel tanks, box bodies, and loading accessories.
- **Visible foam effect:** the foam allows easy monitoring of the treated areas.
- **Versatile:** perfect for agricultural machinery, excavators, and containers before storage.
- **High-power degreaser:** ensures intensive cleaning even on the most difficult external surfaces.

### DIRECTIONS FOR USE AND DILUTIONS

Use the product diluted in water from 0,5% to 2%, depending on the parts to be treated.

### PRECAUTIONS

Strictly avoid allowing the solution to dry on painted surfaces. Improper use or prolonged exposure to the product may cause damage to the treated surface. Do not spray the product on aluminum or light alloys. Use in well-ventilated areas. Minimum recommended concentration: 0,5%.

### CONTENTS

Non-ionic surfactants  $\geq 5$  -  $< 15\%$ ,  
phosphonates, EDTA and its salts,  
fragrance (BENZALDEHYDE)  $< 5\%$ .

### BIODEGRADABILITY

The surfactants contained in this formulation comply with the biodegradability criteria established by Regulation (EC) No. 648/2004 on detergents.

### FEATURES

pH value at 20°C:  $> 12$   
Physical characteristics: Brown liquid  
Density at 20°C:  $1,2 \text{ g/cm}^3$   
Water solubility: Fully Miscible

### WARNINGS

Do not use on motorcycles.  
The product is safe when used at the recommended dilutions.  
PROFESSIONAL USE.

### AVAILABLE FORMATS

Product Code	Format	
P0589	25Kg Jerry can	24
0638	1000Kg Jerry can	1
